Chemistry, Books a la Carte Edition (7th Edition)

John E. McMurry, Robert C. Fay, Jill Kirsten Robinson

Chemistry, Books a la Carte Edition (7th Edition) John E. McMurry, Robert C. Fay, Jill Kirsten Robinson

NOTE: This edition features the same content as the traditional text in a convenient, three-hole-punched, loose-leaf version. Books a la Carte also offer a great value—this format costs significantly less than a new textbook. Before purchasing, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

XXXXXXXXXXXXXXXXXX

For two-semester general chemistry courses (science majors).

Make critical connections in chemistry clear and visible

McMurry/Fay/Robinson's Chemistry, Seventh Edition, aims to help students understand the connections between topics in general chemistry and why they matter. The Seventh Edition provides a concise and streamlined narrative that blends the quantitative and visual aspects of chemistry, demonstrates the connections between topics, and illustrates the application of chemistry to their lives and careers. New content offers a better bridge between organic and biochemistry and general chemistry content, and new and improved pedagogical features make the text a true teaching tool rather than just a reference book.

New **MasteringChemistry** features include conceptual worked examples and integrated Inquiry sections that help make critical connections clear and visible and increase students' understanding of chemistry. The Seventh Edition fully integrates the text with new MasteringChemistry content and functionality to support the learning process before, during, and after class.

Also Available with MasteringChemistry®.

MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources such as Learning Catalytics. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions.

Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever—before, during, and after class.

From reader reviews:

Mary Williams:

Reading a guide tends to be new life style on this era globalization. With reading you can get a lot of information that will give you benefit in your life. Together with book everyone in this world can share their idea. Textbooks can also inspire a lot of people. Plenty of author can inspire their particular reader with their story or their experience. Not only the story that share in the guides. But also they write about the information about something that you need illustration. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors these days always try to improve their talent in writing, they also doing some investigation before they write for their book. One of them is this Chemistry, Books a la Carte Edition (7th Edition).

Andrew Hall:

Playing with family in a park, coming to see the marine world or hanging out with close friends is thing that usually you could have done when you have spare time, in that case why you don't try matter that really opposite from that. One particular activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Chemistry, Books a la Carte Edition (7th Edition), you may enjoy both. It is fine combination right, you still desire to miss it? What kind of hang-out type is it? Oh can happen its mind hangout folks. What? Still don't obtain it, oh come on its identified as reading friends.

Cindy Knutson:

Are you kind of busy person, only have 10 or even 15 minute in your moment to upgrading your mind skill or thinking skill actually analytical thinking? Then you are having problem with the book when compared with can satisfy your limited time to read it because this time you only find guide that need more time to be go through. Chemistry, Books a la Carte Edition (7th Edition) can be your answer since it can be read by an individual who have those short time problems.

Michael Kruger:

Within this era which is the greater person or who has ability in doing something more are more precious than other. Do you want to become considered one of it? It is just simple way to have that. What you need to do is just spending your time very little but quite enough to enjoy a look at some books. One of the books in the top listing in your reading list is definitely Chemistry, Books a la Carte Edition (7th Edition). This book and that is qualified as The Hungry Inclines can get you closer in growing to be precious person. By looking way up and review this book you can get many advantages.
