The Federalist Papers (With Footnotes) James Madison, Alexander Hamilton, John Jay, Goodreads
The Federalist Papers are a series of 85 articles advocating the ratification of the United States Constitution. Seventy-seven of the essays were published serially in *The Independent Journal* and *The New York Packet* between October 1787 and August 1788. A compilation of these and eight others, called *The Federalist*, was published in 1788 by J. and A. McLean.

The Federalist Papers serve as a primary source for interpretation of the Constitution, as they outline the philosophy and motivation of the proposed system of government. The authors of the Federalist Papers wanted to both influence the vote in favor of ratification and shape future interpretations of the Constitution. According to historian Richard B. Morris, they are an "incomparable exposition of the Constitution, a classic in political science unsurpassed in both breadth and depth by the product of any later American writer."
