Thinking Through Ethics and Values in Primary Education (Thinking Through Education Series)

Thinking Through Ethics and Values in Primary Education is an accessible text that encourages readers to explore deeply the ethics and values surrounding primary education. The text helps the reader to critically reflect on the principles that underpin education. Specifically written for education students in the later years of their course, the text draws on research and practice to explore the challenges and opportunities involved, while helping to develop the reader's own critical thinking skills.

The book begins by asking 'what are ethics and values?' and goes on to explore social diversity and society and education. It considers ethics and values and the curriculum, school organisation and the classroom. A chapter on ethics, values and the teacher encourages the reader to examine their own thoughts about education. Throughout, practical guidance runs alongside structured critical thinking exercises to help the reader and reflect on both theory and practice.
