## **Minimizing Coordination Problems Between the JFACC and JFLCC in the Coordination of Joint Fires Between the FSCL and Land Component Forward Boundary** Michael J. Barbee

This thesis discusses the coordination problems which arise between the Joint Force Air Component Commander (JFACC) and the Joint Force Land Component Commander (JFLCC) when trying to employ fires between the fire support coordination line (FSCL) and the land component forward boundary. This is due to the JFLCC being the supported commander within this area of the battlefield, though the JFACC actually has the preponderance of capabilities for employing fires. Joint doctrine explicitly states that the FSCL is a permissive measure. However, coordination with other affected commanders is required when employing fires to prevent duplication of targets, as well as fratricide. Joint doctrine provides great latitude to joint force commanders to establish command and control relationships and employ appropriate coordination measures to ensure effective coordination. This thesis concludes that the FSCL must be treated as a permissive measure, just as defined in joint doctrine. Though the JFLCC is the supported commander, the JFACC should be appointed the Coordinating Authority for fires beyond the FSCL due to his capabilities to both acquire targets and employ fires. The JFLCC best retains his influence in shaping the battlefield beyond the FSCL by providing the JFACC mission-type orders, in addition to standard target nominations.

**From reader reviews:**

**Terry Kopp:**

Book is to be different per grade. Book for children right up until adult are different content. As it is known to us that book is very important for all of us. The book Minimizing Coordination Problems Between the JFACC and JFLCC in the Coordination of Joint Fires Between the FSCL and Land Component Forward Boundary was making you to know about other know-how and of course you can take more information. It is rather advantages for you. The publication Minimizing Coordination Problems Between the JFACC and JFLCC in the Coordination of Joint Fires Between the FSCL and Land Component Forward Boundary is not only giving you a lot more new information but also to become your friend when you experience bored. You can spend your personal spend time to read your e-book. Try to make relationship with the book Minimizing Coordination Problems Between the JFACC and JFLCC in the Coordination of Joint Fires Between the FSCL and Land Component Forward Boundary. You never experience lose out for everything when you read some books.

**John Bennett:**

Information is provisions for anyone to get better life, information these days can get by anyone on everywhere. The information can be a know-how or any news even a concern. What people must be consider when those information which is within the former life are difficult to be find than now could be taking seriously which one is acceptable to believe or which one the resource are convinced. If you find the unstable resource then you buy it as your main information we will see huge disadvantage for you. All those possibilities will not happen inside you if you take Minimizing Coordination Problems Between the JFACC and JFLCC in the Coordination of Joint Fires Between the FSCL and Land Component Forward Boundary as the daily resource information.

**Patrick Pond:**

Often the book Minimizing Coordination Problems Between the JFACC and JFLCC in the Coordination of Joint Fires Between the FSCL and Land Component Forward Boundary will bring you to definitely the new experience of reading a book. The author style to describe the idea is very unique. In case you try to find new book to study, this book very ideal to you. The book Minimizing Coordination Problems Between the JFACC and JFLCC in the Coordination of Joint Fires Between the FSCL and Land Component Forward Boundary is much recommended to you to learn. You can also get the e-book from the official web site, so you can quicker to read the book.

**Charles Morris:**

With this era which is the greater person or who has ability in doing something more are more special than other. Do you want to become among it? It is just simple way to have that. What you must do is just

spending your time very little but quite enough to experience a look at some books. One of the books in the top listing in your reading list is usually *Minimizing Coordination Problems Between the JFACC and JFLCC in the Coordination of Joint Fires Between the FSCL and Land Component Forward Boundary*. This book that is certainly qualified as *The Hungry Slopes* can get you closer in turning out to be precious person. By looking way up and review this publication you can get many advantages.
