Extensive illustrations and examples quickly engage students in actual research problems, as the text carefully demonstrates how research and writing are interrelated processes. The authors focus on teaching the best research practices, illustrating how to choose the appropriate source and media for each type of problem. Electronic research is completely integrated into the text. Students are given solid guidance for every type of situation, learning when and how to choose between paper and electronic research, and how the choice among different media can result in different access means, scope, and currency of materials. The **Process of Legal Research** offers extensive, well-researched problems sets, ideal for large programs that need plenty of exercise options for their students. Pages with problems sets are perforated for easy use.

The **Eighth Edition** finds a sharper focus on the basics, asking and answering the questions, "What are the various forms of legal authority?" and "How does each contribute to resolving a client's legal problem?" A greater emphasis on how to choose the optimal research options for various authorities includes a mix of print and online as well as public and commercial resources. Each chapter includes a table of optimal research options. The **Eighth Edition** skillfully interweaves smaller employment law problems faced by a firm throughout the text, rather than the single mega-problem of previous editions, and new flow-chart style charts illuminate much of the denser text. Citations are covered in citation boxes, reflecting both the Bluebook and ALWD. In a leaner writing style designed appeal to modern students, the **Eighth Edition** confronts some of the most current hot topics, such as how people think about research today and what firms find wanting in new lawyers research abilities.
