Fractal Standard Time Michael Galloway

Can Eden be built on another planet? Several pioneers, explorers, and inventors aim to find out by establishing a permanent colony on Mars. One mathematician and scientist, Steven Entner, stakes his career on the idea and inspires several generations to come. As his vision evolves through his descendents, so does the technology to implement it. With the technology comes an increasing mastery over the environment. In the wrong hands that technology may lead to their ultimate destruction.
