## **MotoGP Season Review 2007** Julian Ryder

The official *MotoGP Season Review* follows the successful format of the preceding editions, combining Julian Ryder's lively race-by-race analysis with an astonishing collection of race data. Details include: qualifying times with gaps to the pole-winning time; graphic lap-by-lap performance charts showing each rider's progress; race, lap, and fastest-lap times; the average speed for each rider; track maps with sections annotated with average speed and gear selection choices; points standings; and a thumbnail report of each rider's race.

The book also presents a detailed technical review of the new-for-2007 800cc four-stroke racing motorcycles that break the 200mph barrier at more than half the circuits they visit.

With the September race in Japan, Ducati's 21-year-old Casey Stoner had recorded nine wins and locked-up the MotoGP Championship with three races remaining in the season. It was a dazzling performance on the new 800cc Desmosedici GP7.
