French Battleships, 1922-1956

John Jordan, Robert Dumas

French Battleships, 1922-1956 John Jordan, Robert Dumas

The French battleships of the *Dunkerque* and *Richelieu* classes were the most radical and influential battleship designs of the interwar period, and were coveted by the British, German and Italian navies following the Armistice of June 1940. Using a wealth of primary-source material, some of which has only recently been made available, the authors provide a full account of their development and a detailed analysis of their design characteristics. The technical chapters are interspersed with operational histories, with a particular focus on the operations in which the ships engaged other heavy units. The book is extensively illustrated with hundreds of photographs and technical drawings, including twenty-two color profile and plan views of the ships.
