The Gnostic Gospels: What the Church didn't want you to know John Fitzgerald

I wrote this book because I was totally fascinated by the historical fact that the Catholic Church tried so hard to remove this information from human history and I found it to be bizarre for two main reasons. One they were believed to be part of the Bible and Two the Church officially claimed, that they were false and beyond the understanding of the layman. This made no sense to me as if in fact they are false then why remove them from history by destroying all copies and killing those who were in possession of them, and secondly why would it matter if layman could understand them are not if again they were false. I believe that Information should never be censored by anyone or any organization whether religious in nature or governmental. That is why I wrote this book!
