Arcanum roughly translates as a secret known only by a select few, the Arcanum the Secret of Eternal life reveals for the second time the truth about the creators plan - eternal life and the Apocypse which means unveiling or revealing. This book explains how eternal life has been met with science as a secret symbiotic relationship that forms the tree of eternal life. The Arcanum the Secret of Eternal Life introduces the concept of the first world that was destroyed that is now simulated and copied in the second virtual world, and how our strongest thoughts and feelings manifest as our lives lived in a positive or negative mental direction. How our Micro Adika Kadisha guides us in the virtual world and performs as the ego internal dialog; and how our bodies are transgenic and modified in a symbiotic relationship where we are absorbed alive and are the manna of heaven, this family tree of sharing blood and flesh allows for eternal life and the true meaning of the Eucharist and the Holy Trinity.
