## **Crane Pond: A Novel of Salem** Richard Francis

Usually told from the perspective of the victims, the Salem Witch Trials are a forever story. The vestiges of a particular strain of American social hysteria remain with us even today. In *Crane Pond*, Richard Francis reveals a side of the history that is not often recounted, as he skillfully constructs a portrait of Samuel Sewall, the only judge to later admit that a terrible mistake had been made.

In a colony on the edge of survival in a mysterious new world where infant mortality is high and sin is to blame, Sewall is committed to being a loving family man, a good citizen, and a fair-minded judge. Like any believing Puritan, he agonizes over what others think of him, while striving to act morally correct, keep the peace, and (hopefully make time to) enjoy a hefty slice of pie. His one regret is that only months before he *didn't* sentence a group of pirates to death. What begins as a touching story of a bumbling man tasked with making judgements in a society where reason is often ephemeral, quickly becomes the chilling narrative we know too well. And when public opinion wavers, Sewall learns that what has been done cannot be undone.

*Crane Pond* explores the inner life of a well-meaning man who compromised with evil. It presents an unflinching portrayal of Sewall's efforts to piece together a new perspective from shattered preconceptions, vividly tracking his search for atonement, for peace, and ultimately for a renewal of hope. At once a searing view of the Trials from the inside out, an empathetic portrait of one of the period's most tragic and redemptive figures, and an indictment of the malevolent power of religious and political idealism, it is a thrilling new telling of one of America's founding stories.
