Safari Rifles II: Doubles, Magazine Rifles, and Cartridges for African Hunting Craig Boddington
Gone are the days of simple-solid and softpoint-bullets for a mere dozen-and-a-half African calibers. The sheer number of products on the market today staggers the mind and bewilders even experienced hunters. Boddington presents his information in clearly explained, bite-size pieces that we can digest, and in the process he gives us a solid understanding of what works and what doesn't. Many writers proclaim their knowledge of African hunting, but few have the true in-depth experience that comes from thousands of days afield. Boddington's *Safari Rifles II* is a rare gem of a book, offering solid information based on vast experience and insight gathered over the last thirty years of hunting on the Dark Continent.
