Fantasy and Sci Fi are genres of heroes and villains. The time has come for heroines and villainesses to make their presence felt. The Fantasy & Science Fiction Beauties Handbook contains new material for players and GMs who like to include beautiful/cute/sexy women characters in their games. Designed for the D20 Modern/Future OGL setting it can be easily adapted to any campaign. This volume includes: \* Six new races: the mysterious enigma, the athletic olympians, the perfect by design PAR, the serpentine sokuja, the otherworldly spirit touched, and the classic toga women. \* The Equipment section is full of things you'll wonder how Sci Fi beauties ever did without, and new techno-toys that even male characters will want to get their hands on. \* Four prestige classes ranging from the manipulative Foil to the guitar-wielding Rock Warrior. \* Six new Starting Carriers \* Fourteen new feats \* Six new magical items \* Two new spells \* Five new psionic powers Also includes ALL NEW MATERIAL for fantasy OGL settings. \* Four new races: the shape changing bakemono, the classic bunny girls, the devilishly sexy cuperecatel, and the feline nekojin. \* Two new classes: the chiquan and performance dancer classes will help your fantasy beauty get the most out of her high Charisma. \* The Victoria's Armor section allows you to mix and match styles and materials to design the perfect outfit for your female character (instead of the "unisex tin-can look" found in other books). \* New magical items and spells. Above all, the Fantasy & Science Fiction Beauties Handbook is a sincere gaming product. The goal is to glorify beautiful women, not exploit them. So you can look your GM in the eye and say with a strait face: "Yes, I want to use the Sci Fi Beauties Handbook for my character."
