Geotechnical Engineering

R. K. Khitoliya, Pardeep Kumar Gupta

Geotechnical Engineering R. K. Khitoliya, Pardeep Kumar Gupta

The book exhaustively deals with the fundamental principles of soil mechanics and aims to serve the needs of B.E., and B. Tech students of Civil Engineering. It covers the syllabi of almost all technical universities and institutes. The concepts have been developed systematically. A large number of graded numerical examples and solutions are included. References are made to the relevant Indian standard codes at appropriate places. New concepts like Critical-State Concept, Three-Dimensional Consolidation and Stress Path Method have also been included in the book. The book will be useful for degree & diploma students of Civil Engineering, practising engineers and students appearing in various competitive examinations including AMIE. The Book broadly deals with: Basic Terminology and Interrelations Index Properties of Soils Soil Classification Systems Soil Water and Effectives Stress Permeability Seepage Analysis Stress Distribution in Soil Mass Compaction Consolidation Shear Strength of Soils Lateral Earth Pressure and Earth Retaining Structures Stability of Slopes Contents: Introduction / Basic Terminology and Interrelations / Index Properties of Soils / Soil Classification Systems / Soil Water and Effectives Stress / Permeability / Seepage Analysis / Stress Distribution in Soil Mass / Compaction / Consolidation / Shear Strength of Soils / Lateral Earth Pressure and Earth Retaining Structures / Stability of Slopes / References/Bibliography / Index. Audience: B.E and B. Tech Civil Engineering Students

From reader reviews:

Scottie Hicks:

Reading a e-book can be one of a lot of activity that everyone in the world likes. Do you like reading book consequently. There are a lot of reasons why people fantastic. First reading a guide will give you a lot of new information. When you read a e-book you will get new information mainly because book is one of many ways to share the information or even their idea. Second, looking at a book will make anyone more imaginative. When you looking at a book especially fictional book the author will bring that you imagine the story how the people do it anything. Third, you may share your knowledge to some others. When you read this Geotechnical Engineering, you may tells your family, friends in addition to soon about yours guide. Your knowledge can inspire the others, make them reading a e-book.

Danny Miller:

Playing with family within a park, coming to see the water world or hanging out with buddies is thing that usually you may have done when you have spare time, and then why you don't try factor that really opposite from that. One activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition info. Even you love Geotechnical Engineering, it is possible to enjoy both. It is great combination right, you still wish to miss it? What kind of hang type is it? Oh come on its mind hangout guys. What? Still don't have it, oh come on its identified as reading friends.

Ida Green:

Is it an individual who having spare time after that spend it whole day simply by watching television programs or just laying on the bed? Do you need something new? This Geotechnical Engineering can be the respond to, oh how comes? It's a book you know. You are so out of date, spending your time by reading in this new era is common not a geek activity. So what these ebooks have than the others?

Richard Chambers:

Reading a guide make you to get more knowledge from it. You can take knowledge and information from the book. Book is prepared or printed or outlined from each source that will filled update of news. In this modern era like currently, many ways to get information are available for you actually. From media social including newspaper, magazines, science publication, encyclopedia, reference book, new and comic. You can add your knowledge by that book. Do you want to spend your spare time to spread out your book? Or just trying to find the Geotechnical Engineering when you needed it?
