The World Economy between the Wars Peter Temin, Gianni Toniolo

The European Economy between the Wars, (OUP, 1997) has become the definitive economic history of Europe in the inter-war period. Placing the Great Depression of 1929-33 and the associated financial crisis at the center of the narrative, the authors comprehensively examined the lead-up to and consequences of the depression and recovery. The authors now expand their scope to include the entire world economy, and have created a new edition: *The World Economy between the Wars*. New material focuses on the structure of the world economy in the 1920s, including a special focus on the United States, Japan, and Latin America.
