Corporations in and under International Law (Hersch Lauterpacht Memorial Lectures) Ignaz Seidl-Hohenveldern

This book deals with two important aspects of the place of corporate bodies in international law. The author examines, first, in relation to both private and State-owned corporations, the problems of diplomatic protection, nationalization and State responsibility. Second, he discusses some problems of those corporate entities which owe their existence to international law, whether international organizations proper or common inter-State enterprises. These questions are all ones of continuing practical interest.
