- Offers a philosophically rigorous presentation of the golden rule
- Includes helpful study aids, including: bolded technical terms, boxes for key ideas, chapter summaries, suggested readings, and a glossary/index

Key additions to the Second Edition:

- A new chapter on virtue ethics, which deals with Aristotle, Plato, and related controversies
- A new chapter on natural law theory, which deals with Aquinas, double effect, sexual morality, and related controversies

- An expanded bibliography
- A new appendix that overviews key books students will want to pursue upon completing *Ethics: A Contemporary Introduction*, Second Edition
- A rewritten instructional program, EthCola, which is now much easier to download and use and has (for students) revised exercises for each chapter and (for instructors) a score-processing program, class slides, and instructor's manual. This can be found on the book's companion website:
