Snowflakes are the six-sided wonders of the winter world — out of billions no two are exactly alike. These miniature stars are so delicate that they vanish with a warm breath. Now with this collection of eight colorable snowflakes you can have them around all year round!

The pictures are printed on special paper that allows light to shine through it. First cut the pages from the book as neatly as you can. Then color the pictures, using crayons, felt-tip pens, or paints. You'll get particularly interesting effects if you color both sides, using different colors on the backs than on the fronts. When the pictures are taped to a window, the sunlight shines through them the same way it shines through colored glass!
