The Jungles of Randomness: A Mathematical Safari

Ivars Peterson

The Jungles of Randomness: A Mathematical Safari Ivars Peterson

"Peterson's knowledge of and affection for mathematics comes through with every word."--San Diego Union Tribune.

"Peterson is, in short, the math teacher everyone wishes they had in high school."--Publishers Weekly.

"Peterson has honed his explanatory skills finely. He is a readable guide through the tangles of probability and random chance. The Jungles of Randomness will give some insight into one of the most fruitful areas where math meets practical living."--Christian Science Monitor.

The delightful trek through the exotic and powerful world of randomness.

Popular math author Ivars Peterson leads readers on an exciting foray into the wilds of randomness, introducing exciting new discoveries--from hidden rules governing games of chance to how the first molecules of life formed and how random numbers can protect sensitive information on the Internet. Along the way, he charts the ambiguous boundary between order and chaos, revealing the astonishing patterns so often hidden in apparent randomness as well as the startling randomness often embedded in apparent order.

Ivars Peterson (Washington, D.C.) is the mathematics and physics editor at Science News and the author of four previous trade books, including *The Mathematical Tourist* and *Islands of Truth: A Mathematical Mystery Cruise*.

From reader reviews:

Thersa Davenport:

The book *The Jungles of Randomness: A Mathematical Safari* gives you the sense of being enjoy for your spare time. You may use to make your capable much more increase. Book can for being your best friend when you getting stress or having big problem together with your subject. If you can make reading through a book *The Jungles of Randomness: A Mathematical Safari* for being your habit, you can get much more advantages, like add your own personal capable, increase your knowledge about several or all subjects. You can know everything if you like start and read a reserve *The Jungles of Randomness: A Mathematical Safari*. Kinds of book are a lot of. It means that, science reserve or encyclopedia or other people. So , how do you think about this reserve?

Charlotte Womble:

Information is provisions for folks to get better life, information these days can get by anyone from everywhere. The information can be a expertise or any news even a problem. What people must be consider any time those information which is from the former life are hard to be find than now's taking seriously which one would work to believe or which one often the resource are convinced. If you obtain the unstable resource then you buy it as your main information we will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take *The Jungles of Randomness: A Mathematical Safari* as the daily resource information.

Eli Benton:

This book untitled *The Jungles of Randomness: A Mathematical Safari* to be one of several books which best seller in this year, this is because when you read this e-book you can get a lot of benefit upon it. You will easily to buy this specific book in the book retail outlet or you can order it via online. The publisher on this book sells the e-book too. It makes you quickly to read this book, since you can read this book in your Smart phone. So there is no reason for your requirements to past this guide from your list.

Bennie Gale:

A lot of people said that they feel uninterested when they reading a book. They are directly felt it when they get a half elements of the book. You can choose typically the book *The Jungles of Randomness: A Mathematical Safari* to make your own reading is interesting. Your skill of reading talent is developing when you like reading. Try to choose very simple book to make you enjoy to study it and mingle the impression about book and examining especially. It is to be first opinion for you to like to start a book and go through it. Beside that the publication *The Jungles of Randomness: A Mathematical Safari* can to be a newly purchased friend when you're experience alone and confuse in doing what must you're doing of that time.
