Statistical Modelling in GLIM (Oxford Statistical Science Series)

Murray Aitkin, Brian Francis, John Hinde, Dorothy Anderson

Statistical Modelling in GLIM (Oxford Statistical Science Series) Murray Aitkin, Brian Francis, John Hinde, Dorothy Anderson

This textbook is an introduction to both the theory of statistical models with general linear models and the practical implementation of these analytical techniques using a widely available computer package, GLIM (Generalized Linear Interactive Modelling). The authors fully integrate the theoretical and practical aspects, illustrating statistical principles by worked examples using GLIM's extensive interactive facilities. Statisticians working in a wide range of fields including biomedical research and the social sciences will find this an invaluable desktop companion to their statistical modelling. It also provides a hands-on guide for advanced students in these areas who may be using the techniques for the first time.

From reader reviews:

William Fiscus:

The guide with title Statistical Modelling in GLIM (Oxford Statistical Science Series) has a lot of information that you can discover it. You can get a lot of gain after read this book. This kind of book exist new information the information that exist in this e-book represented the condition of the world today. That is important to you to learn how the improvement of the world. This specific book will bring you in new era of the globalization. You can read the e-book on the smart phone, so you can read the item anywhere you want.

Jerry Goble:

Reading can called thoughts hangout, why? Because while you are reading a book specifically book entitled Statistical Modelling in GLIM (Oxford Statistical Science Series) your head will drift away trough every dimension, wandering in every single aspect that maybe mysterious for but surely will become your mind friends. Imaging each word written in a e-book then become one web form conclusion and explanation this maybe you never get ahead of. The Statistical Modelling in GLIM (Oxford Statistical Science Series) giving you yet another experience more than blown away your head but also giving you useful data for your better life in this particular era. So now let us present to you the relaxing pattern at this point is your body and mind is going to be pleased when you are finished examining it, like winning an activity. Do you want to try this extraordinary investing spare time activity?

Alexandra Robbins:

It is possible to spend your free time to study this book this publication. This Statistical Modelling in GLIM (Oxford Statistical Science Series) is simple to bring you can read it in the area, in the beach, train along with soon. If you did not get much space to bring often the printed book, you can buy the actual e-book. It is make you much easier to read it. You can save the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.

Philip Nguyen:

Many people said that they feel uninterested when they reading a publication. They are directly felt the idea when they get a half portions of the book. You can choose the book Statistical Modelling in GLIM (Oxford Statistical Science Series) to make your own reading is interesting. Your own personal skill of reading proficiency is developing when you just like reading. Try to choose very simple book to make you enjoy you just read it and mingle the feeling about book and looking at especially. It is to be very first opinion for you to like to open up a book and read it. Beside that the book Statistical Modelling in GLIM (Oxford Statistical Science Series) can to be your brand new friend when you're truly feel alone and confuse using what must you're doing of the time.
