Administrative Capacity in the New EU Member States: The Limits of Innovation? (World Bank Working Papers) Tony Verheijen

'Administrative Capacity in the New EU Member States' reviews progress made in the development of public management systems capable of meeting European standards in the new member states of the European Union (EU), looking into the people, systems, and service delivery aspects of public management systems. The new member states face considerable challenges?improving fiscal management, building absorption capacity of rapidly increasing levels of EU structural funds, and enhancing economic competitiveness?making essential the building of high-quality public management systems. The study applies existing tools for comparative analysis and bench-marking of public management quality used in the context of the EU. It draws conclusions on why progress has been slow on introducing competitive public management systems and practices in the new member states. This report proposes an agenda for reform as well as alternatives to traditional approaches to strengthening public management systems.
