Data Visualization, Part 1: New Directions for Evaluation, Number 139

Data Visualization, Part 1: New Directions for Evaluation, Number 139

Do you communicate data and information to stakeholders? This issue is Part 1 of a two-part series on data visualization and evaluation. In Part 1, we introduce recent developments in the quantitative and qualitative data visualization field and provide a historical perspective on data visualization, its potential role in evaluation practice, and future directions. It discusses:

- Quantitative visualization methods such as tree maps
- Sparklines
- Web-based interactive visualization
- Different types of qualitative data visualizations, along with examples in various evaluation contexts
- A toolography describing additional data visualization tools and software, along with their major strengths and limitations.

Intended as a guidance for understanding and designing data visualizations, this issue introduces fundamental concepts and links them to daily practice.

This is the 139th volume of the Jossey-Bass quarterly report series *New Directions for Evaluation*, an official publication of the American Evaluation Association.
