## **Science Foundations: Biology** Bryan Milner, Jean Martin

Science Foundations is a new series for students of foundation tier GCSE science. The series takes the form of three students' texts - Biology, Chemistry and Physics - and associated teacher's materials. The layout and language level of the texts have been carefully controlled to ensure that the science is presented in an accessible and appealing way. The texts follow a full-colour, double-page-spread format with questions punctuating each page. Each spread concludes with a summary passage of the key ideas imparted in that spread. The texts support all coordinated science syllabuses as well as the NEAB modular syllabus.
