## **The ETs Speak: Who We Are & Why We're Here** Howard F. Batie

Are we alone in the Universe? No – that question has been answered definitively by the thousands of UFO sightings that are reported around the world every month. The bigger questions we should now be asking are: Who Are They? Why Are They Here In Our Skies? and What Are Their Intentions? These are the really important questions that can be answered only by the Extra-Terrestrials (ETs) themselves. With the help of an advanced form of Hypnosis developed by the author, we are beginning to receive the answers to these and other related questions by “interviewing” the ETs directly and letting them answer our many questions. This book does not investigate the size and shape of the thousands of UFOs that are here observing us; this book also does not use hypnotic regression of UFO abductees to understand or make sense of their very personal experiences aboard UFOs. Instead, this book does provide the process and procedures that have allowed the author, a Certified Hypnotherapist, to successfully “interview” and record the many conversations he has had with the beings who “drive” the UFOs. The word-for-word transcripts of the recorded interviews provided in this manuscript have given us a never-seen-before look into and appreciation of the objectives and intentions of several ET races who have heard and answered humanity’s collective call for help and assistance in rescuing Planet Earth from further catastrophic environmental collapse. In order to help us, they have come here to assist us by working alongside us humans as we, with their advanced technologies and training, use new devices gifted by them to remove the radioactivity and pollution from our oceans, cleanse our atmosphere, teach us new methods of physical and emotional healing, strengthen our bodies and increase longevity through natural nutrition, and many other improvements. In order to work alongside us, the ET races have decided to introduce themselves to us physically in several First Contact events in many countries around the world. Humanity will very soon be asked to leave its childhood behind and quickly mature into a civilization that reaches for the stars in concert with its Galactic Brothers and Sisters. Therefore, the real purpose of this book is to introduce humanity to the races and civilizations within our own Milky Way Galaxy that we will physically meet during First Contact by not only introducing them to us physically, but also by providing us with advance information about who they are, what star systems they are from, why they are here, and how they are planning to assist humanity as we, with their help, reclaim the pristine beauty of Starship Earth and, ultimately, join our Galactic mentors and friends as we emerge into a space-faring civilization.
