Shogakukan Biographical Comics is a series of biographies of inspirational historical figures in an easy-to-read manga format. These books are as fun to read as any manga, but the stories they tell are based entirely on historical fact. Every volume includes a map and a historical timeline, rounding out a package that teaches even as it entertains.

Creator of the world-famous painting the Mona Lisa, Leonardo da Vinci is widely considered the greatest genius of all time, his knowledge and ingenuity extending far beyond the field of art. A scientist and inventor, he experimented with flight, studied the human anatomy, and conducted military expeditions. However, some details of his life are less well known. As an artist, he completed only a few works of art, including The Last Supper, and many of his inventions never came to fruition. In his personal writing, he often employed "mirror writing," writing in reverse from right to left. He traveled extensively and died in France more than 500 years ago, leaving many mysteries about his life behind. In this Biographical Comic, we will explore these mysteries, his thoughts on his creations, and the influence of his mother.
