Uncovering Our History: Teaching with Primary Sources Susan H. Veccia

Using primary sources to teach history, which goes beyond rote memorization of dates and facts, has been incorporated into the educational standards of nearly every state. For overburdened K-12 teachers, librarians, and media specialists, complying with those standards is easier said than done. In this useful handbook, expert author Susan Veccia offers readers practical ways to incorporate these standards into their curriculum, using the resources of the Library of Congress's American Memory Website. This national treasure and resource for bringing history alive is home to over 100 digitized collections of primary sources - more than 7.5 million documents! While the wealth of information on this site is freely available, its magnitude can seem overwhelming. This hands-on insider's guide helps educators and librarians navigate the information and learn when, where, and how to incorporate these online primary documents into the curriculum. The author along with four contributors - three teachers, one librarian - share practical lessons and personal stories that illustrate: How American Memory resources can be used to teach history, information; Literacy, and critical thinking in elementary, middle, and high schools; Tips for integrating primary sources into the classroom; Ways to overcome student difficulties with original materials; Historical methods that engage students in the big questions; Experience shows that immersion in the stories of our nation using primary documents illuminates the past and builds genuine interest in a way that textbooks cannot. Veccia and her contributors help classroom teachers and librarians grasp the tools and methods to use this refreshing and effective approach to teaching history.

From reader reviews:

Angela Jones:

What do you in relation to book? It is not important to you? Or just adding material if you want something to explain what your own problem? How about your spare time? Or are you busy individual? If you don't have spare time to try and do others business, it is gives you the sense of being bored faster. And you have spare time? What did you do? All people has many questions above. They should answer that question since just their can do which. It said that about publication. Book is familiar in each person. Yes, it is proper. Because start from on kindergarten until university need this particular Uncovering Our History: Teaching with Primary Sources to read.

April Wages:

As people who live in the particular modest era should be update about what going on or details even knowledge to make all of them keep up with the era which can be always change and progress. Some of you maybe will certainly update themselves by reading books. It is a good choice to suit your needs but the problems coming to anyone is you don't know what one you should start with. This Uncovering Our History: Teaching with Primary Sources is our recommendation to help you keep up with the world. Why, as this book serves what you want and need in this era.

Lowell Oliver:

Reading a book tends to be new life style on this era globalization. With looking at you can get a lot of information that could give you benefit in your life. Having book everyone in this world can share their idea. Publications can also inspire a lot of people. Plenty of author can inspire their very own reader with their story or their experience. Not only the story that share in the publications. But also they write about the data about something that you need case in point. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors on this planet always try to improve their expertise in writing, they also doing some research before they write with their book. One of them is this Uncovering Our History: Teaching with Primary Sources.

Joseph Haner:

Your reading 6th sense will not betray anyone, why because this Uncovering Our History: Teaching with Primary Sources reserve written by well-known writer who knows well how to make book that could be understand by anyone who all read the book. Written in good manner for you, still dripping wet every ideas and publishing skill only for eliminate your hunger then you still skepticism Uncovering Our History: Teaching with Primary Sources as good book not simply by the cover but also by content. This is one e-book that can break don't determine book by its cover, so do you still needing a different sixth sense to pick this specific!?! Oh come on your examining sixth sense already told you so why you have to listening to a different sixth sense.
